

Dear Future Crusader,

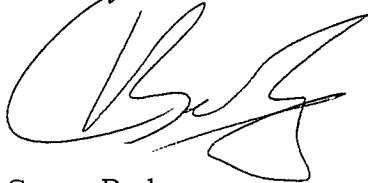

My name is Carron and I am a junior at Bishop McDevitt High School, and proud to say so. McDevitt has done much for me and many other countless students in this school. Not only do you get a great education from a school with an excellent reputation, but you also grow in your faith. Bishop McDevitt has become my extended family, and can become yours as well when you come to this school.

I am currently a member of the Pro-Life Club, one of the largest clubs in the school, and recently went on a trip to Washington D.C. to protest the horror of abortion. I am also a member of Bishop McDevitt's French Club. I participate in Mock Trial, a school club which competes with other school in the local area in arguing a court case, and Model U.N., which recreates a United Nations meeting. All of these are very fun and exciting activities. But there are many other clubs, especially sports such as baseball , lacrosse, field hockey, and football.

Religion is one of the best things about McDevitt, and as time goes on I have come to appreciate it more and more. There are many High Schools where you would be in deep trouble if you even said a simple prayer, but here it is encouraged and welcome. You can speak freely about you faith, and grow more fully in it. Even if you do not share in our Catholic faith, you are just as welcome to our diverse family. Academics are just as great as the religious freedom we have in this school. There are many courses you can take, and teaches who are willing to help you learn a great deal of things and ultimately help you choose what you will do with your life.

You will get out of McDevitt as much as you put into it. The more effort you put into your academics, the more successful you will become. The more you participate, the more fun and enjoyment you will have in your high school years. High School is your chance to bloom, and you will have a great chance to do it at Bishop McDevitt High School.

Sincerely,

A handwritten signature in black ink, appearing to read 'C. Barboza', with a large, stylized flourish at the end.
